| Related Documents | None |
| Additional Information | None |

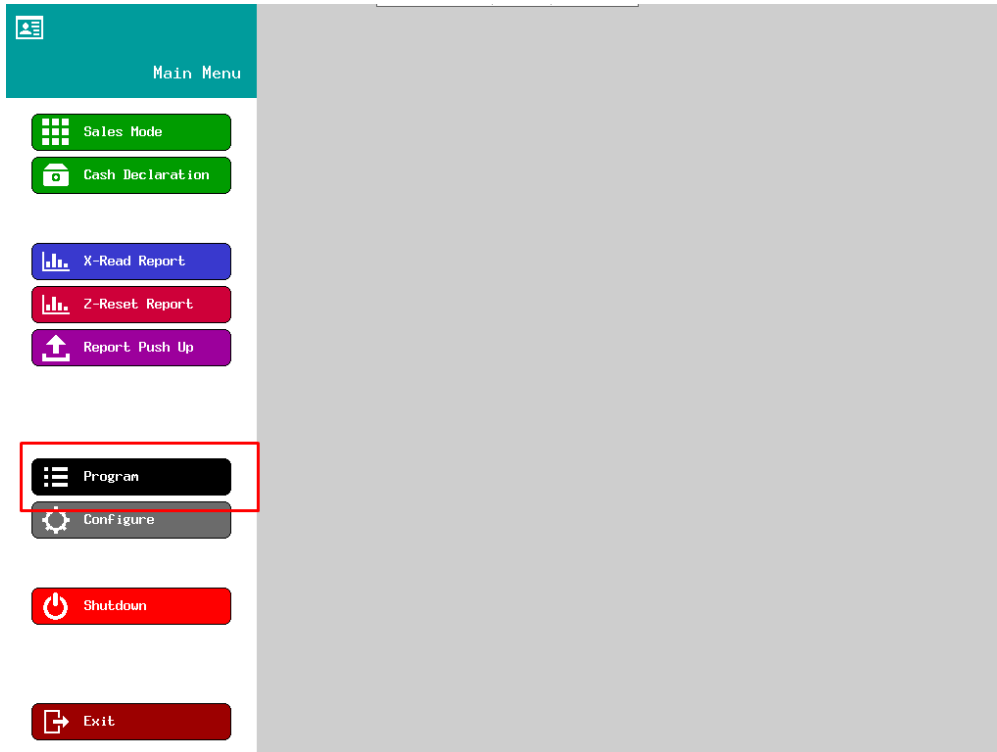

Outcome

 *Setting various security levels for different operators*

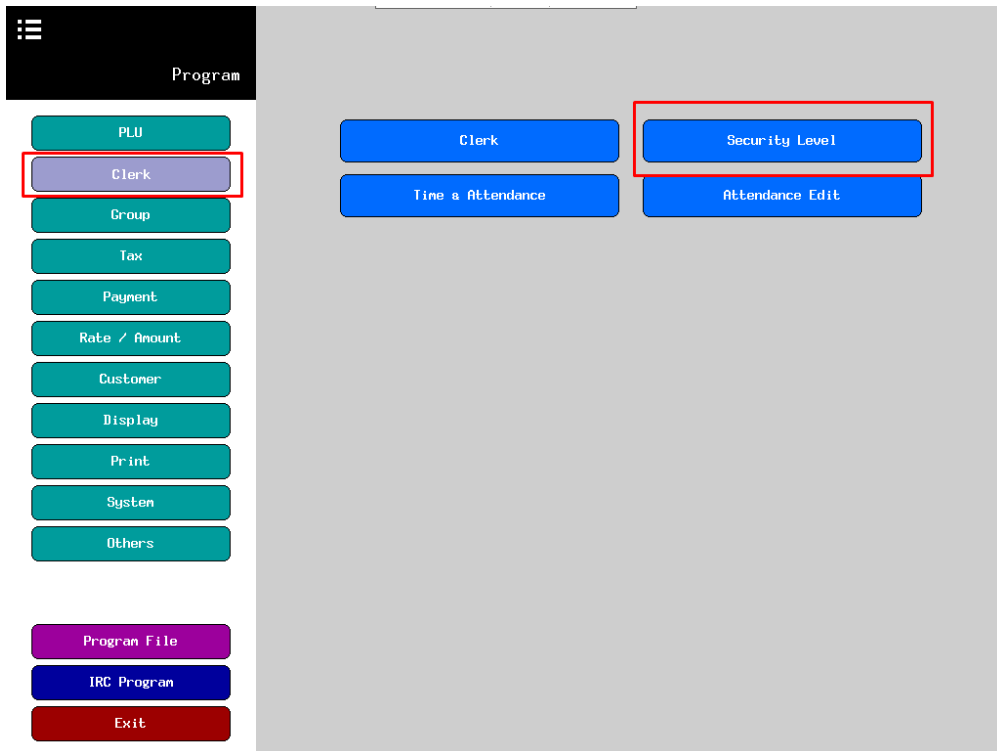

Uniwell has a total of 99 different security levels with an extensive range of options to ensure that the HX model will always have the right security options for each individual operator. This is a highly customizable setting so use with caution. Most of the functions are self-explanatory.

*** Start Of Self Help Instructions ***

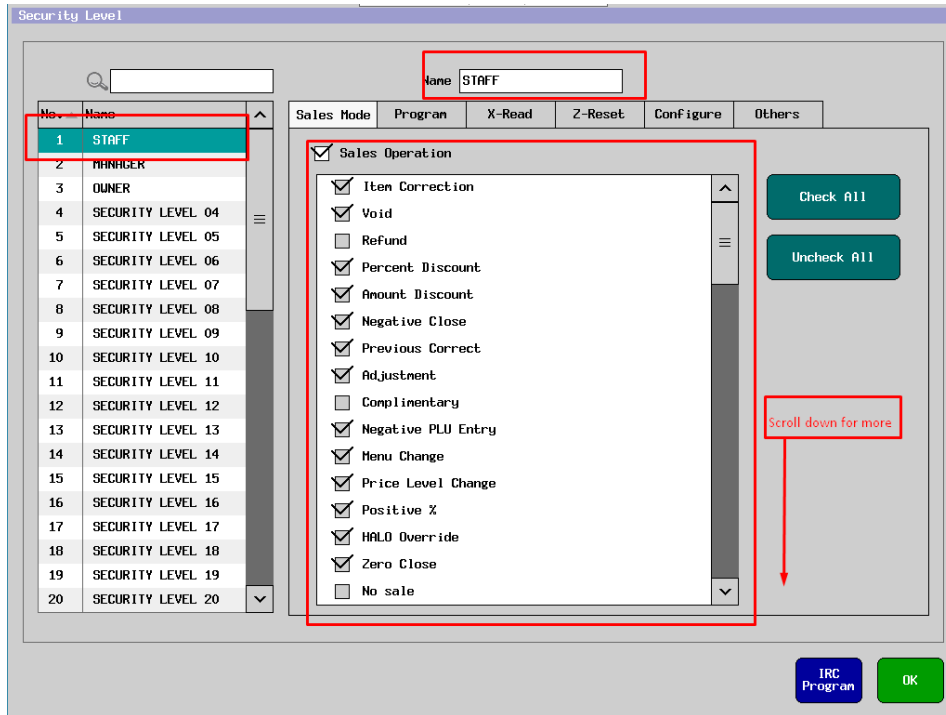

1. Exit sales screen and enter the Programming module.

2. Press 'CLERK'→'SECURITY LEVEL'.

3. Click and highlight Security Level 01 over on the left, tap in the 'NAME' Field to assign a suitable title.
 - a. Select or deselect the security options required for this security level.
 - b. Repeat for the other tabs, i.e. 'PROGRAM|X-READ|Z-RESET|CONFIGURE|OTHERS'. We highly recommend caution when enabling options in 'CONFIGURE & OPTIONS'
 - c. Once complete, repeat steps to program other levels as desired.
 - d. Press 'OK' to save and exit.
